Experience

Full Stack Development Intern, Otomator Technologies Jun 2025 – Present
- Built and deployed **scalable, production-grade** web and mobile applications following **MVC architecture** and **RESTful design principles**.
- Improved backend performance, API response times, and system scalability on 2+ platforms, achieving 80%+ efficiency gains.
- Collaborated in **Agile/Scrum** environments with product, design, and DevOps teams to deliver cloud-ready features.

Skills

Languages: C++, Python, JavaScript (ES6+), TypeScript, PHP, Go (Golang), HTML5, CSS3
Frameworks & Libraries: React, React Native, Node.js, Express.js, Tailwind CSS, RTK Query, Bootstrap, Mongoose
Databases: MongoDB, MySQL, PostgreSQL, Redis
Cloud & DevOps: AWS, Azure, GCP, DigitalOcean, CI/CD, Cloud Deployment
Tools & Practices: Git, GitHub, Postman, REST APIs, Agile, Scrum, System Design
Soft Skills: Problem Solving, System Thinking, Ownership, Cross-functional Collaboration, Clear Communication, Adaptability

Projects

CampusCravings — Campus Food Ordering Platform Jan 2025 – Jun 2025
- Developed a **scalable, multi-tenant** campus food ordering system with a **student mobile app (React Native)** and a **web-based admin dashboard**.
- Implemented **real-time systems** for order tracking, queue visualization, and outlet-level analytics using Socket.IO.
- Designed **modular backend architecture** supporting multiple outlets and automated nutrition insights using Google Gemini AI.
- **Tech:** MERN Stack, React Native, Socket.IO, Firebase, Cloudinary

IdeiaCard — Otomator Technologies Aug 2025 – Oct 2025
- Built an **enterprise-grade** school management system with biometric-based attendance workflows.
- Deployed four React Native applications supporting teachers, parents, vendors, and drivers.
- Automated school workflows and digital payments, reducing paper usage by over 95%.
- **Tech:** PHP, JavaScript, React Native, MySQL

Rupin Studio — Otomator Technologies Jun 2025 – Aug 2025
- Developed a **custom ERP system** for client onboarding, project tracking, and asset management.
- Eliminated 100% manual data entry through **process automation**.
- Delivered a production-ready mobile application published on Google Play Store.
- **Tech:** MERN Stack, React Native

XEV EV Charging — Otomator Technologies Nov 2025 – Jan 2026
- Architected a **production-scale mobile application** for a U.S.-based EV company.
- Implemented slot reservations, live charger availability, remote charging control, and subscription workflows.
- Built secure in-app payment handling aligned with industry security practices.
- **Tech:** MongoDB, React Native, Go, Expo, TypeScript

Education

B.Tech in Computer Science, Bennett University *2022 – Present*
Senior Secondary Schooling, Capt. Ganga Singh Rawat IC *2020 – 2022*

Certifications & Achievements

- AWS Certified Cloud Practitioner — 840/1000
- Deep Learning & Reinforcement Learning — IBM (98.5%)
- Agile Software Development — University of Minnesota (93.4%)
- Networking Fundamentals — Google (92.2%)
- Top 15 (University Level) — Smart India Hackathon 2023
